## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 2 and 4-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Harris.

Regarding claim 1, Applicant's method comprises a single step: "applying a sticker to a button." Harris clearly anticipates that step. The recitation regarding the design printed on the button is an apparatus-type limitation that does not affect the recited method step.

Regarding claim 2, it is known that spacecraft like the Space Shuttle have keyboards as part of their dashboard. Therefore, a keyboard button, such as that disclosed by Harris, can be considered a "dashboard button."

Regarding claim 4, Harris discloses a sticker for a button. The recitation regarding the design on the sticker is a purely ornamental consideration, and it has been held that matters relating to ornamentation only, and having no mechanical function, cannot be relied on where claims are not directed to design but are structural claims. *In re Seid*, 73 USPQ 431.

Regarding claims 5 and 6, these limitations are merely statements of intended use, and as such they only require the ability to so perform. Clearly, the stickers disclosed by Harris could perform as recited, if desired.

***Allowable Subject Matter***

3. Claim 3 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
4. Claim 7 is allowed.

***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gary C Hoge whose telephone number is (703) 308-3422. The examiner can normally be reached on 5-4-9.
